

REMARKS**BEST AVAILABLE COPY**

Claims 1-8 remain in the application.

The claims have been rewritten, with the structure of the handle members further specified in claim 1.

Claims 7 and 8 have been rewritten to be in proper method format.

Claim 1 recites the U-shaped front and side handles on the upper body member which are not found in any of the references, nor suggested therein, such that claims 1-6 are urged to define patentable over the art cited.

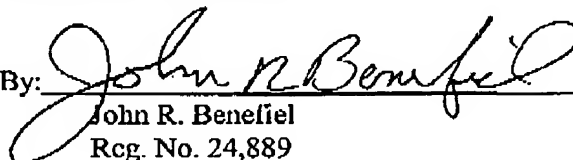

Claims 7 and 8 recite the method which clearly is not suggested in the references cited.

Accordingly, favorable reconsideration is respectfully requested.

Respectfully submitted,
